Core Domain

React Native

Database Management Systems

Soft Skills

Problem Solving ,Team Collaboration

SUMMARY

I am a dedicated Software Engineering student with a passion for creating intuitive and accessible digital solutions. My journey in tech started with graphic design, which gave me a unique perspective on user experience and visual aesthetics.

I combine my design sensibilities with strong technical skills to build applications that not only function flawlessly but also delight users. From payroll systems to real-time chat applications, I approach each project with attention to detail and a commitment to excellence.

EXPERIENCE

Junior Assistant

TIER-LINK Pvt. Ltd, Rawalpindi • Feb 2023 - Oct 2023

- Assisted in managing technical operations and software documentation.
- Conducted quarterly meetings with client to update/renew services.

2022 - 2026

LANGUAGES

- English - Native
- Urdu - Proficient

CERTIFICATES

- Graphic Desgining
- WordPress Web Development
- Web Desgining

ACHIVEMENT

- Runner-Up – Cybersecurity Competition **NASCon '24**

WORKSHOPS & TRAININGS

- **FireWall Router Desgin Using PFSense**
BIIT Cyber Security - Fall 2024
- **DevOps Workshop**
BIIT Software Engineering Society - 2025
- **ServiceNow Workshop**
BIIT Software Engineering Society 2024

PROJECTS

Employee Payroll Portal

- A comprehensive payroll management system featuring automated salary calculations, employee records management, payslip generation with detailed breakdowns including allowances and deductions, and real-time dashboard analytics showing total employees, monthly payroll summaries, and pending requests.

Real-Time Chat Application

- A full-featured messaging platform supporting one-to-one chat with real-time message delivery using SignalR. Features include media sharing (images & videos), message status indicators, contact management, and responsive design across mobile, tablet, and desktop devices.

Teacher Evaluation & Director Dashboard (FYP)

- A React Native and ASP.NET system for academic oversight at BIIT University.
- Features include a secure student module for confidential teacher evaluations with multiple-choice questions and feedback.
- Plus an integrated Director Dashboard for performance monitoring with visual comparison charts and analytics.
